Reasons for allowance

1. This communication is in response to applicant's communications in the application of Susnow et al. for the "Multi-lane receiver de-skewing" filed 09/13/2000. This application is a Request for Continued Examination (RCE) under C.F.R. 1.114 filed on September 13, 2004. The amendment filed 04/12/2004 has been entered and made of record. The claims have been amended to better point out and more distinctly claim subject matter comprising the invention.
2. Claims 1-22 are allowable as evident by applicant's amendment.
3. The following is an examiner's statement of reasons for allowance: The instant application is deemed to be directed to a no obvious improvement over the prior art of record. The improvement comprises a des-skew signal for initiating a de-skewing process; a test signal generator simultaneous feeding a test signal to inputs of the plurality of data lanes in response to the de-skew signal; and wherein, one de-skewed, the control state machine refrains from further control of the signals unless deemed necessary by the respective receiver. The instant invention, in combination with the other claimed features, improves upon the Prior Art by providing a method for effectively and efficiently technique for de-skewing in multi-lane receiver.
4. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue
